

The Work We Do

DARE TO BE SAFE!

October 22, 2024 | Building Relationships in Our Campus Community

Tonight was the last of five Heat & Heat events that have drawn over 1,200 students who attended the educational session and live burn demonstrations in the Campus Residences Communities, including Roth/Tabler, H/Mendelsohn/Toll, Roosevelt, West/Schomburg and Chapin. There were so many students at tonight's event that even ran out of Wings at the ASA food truck.

So much planning goes into these events to "Ignite Awareness" of the importance of fire safety and prevention. Together with the partnerships with Campus Residences and the Auxiliary Services Association (ASA) students had a memorable experience. Thank you to our Fire & Emergency Services team for building those solid relationships.
