## Change Leader Network (CLN)

#### What is a Change Leader Network?

- An integral part of the Change
   Management Methodology at Stony
   Brook
- A peer-led group of influencers and impacted users across Stony Brook who will assist in building awareness, active listening and gathering concerns, promoting buy-in, and providing support to stakeholders impacted by the project
- An indispensable asset to drive and support change adoption

#### **Change Management at Stony Brook**

### Why is a Change Leader Network needed?

Promote **understanding** to assist employees in understanding changes, dealing with uncertainty and ambiguity as the program progresses through implementation

Advocate positive change through face-to-face and informal communications that are required to **change behaviors** and attitudes

Build **accountability** and **ownership** by empowering Change Champions to gather feedback from stakeholders, answer questions and resolve concerns without having to wait or rely only on "formal, official" communications

Build a **community of early adopters** who value the opportunity to try out new technology first and get a chance to demonstrate their leadership skills

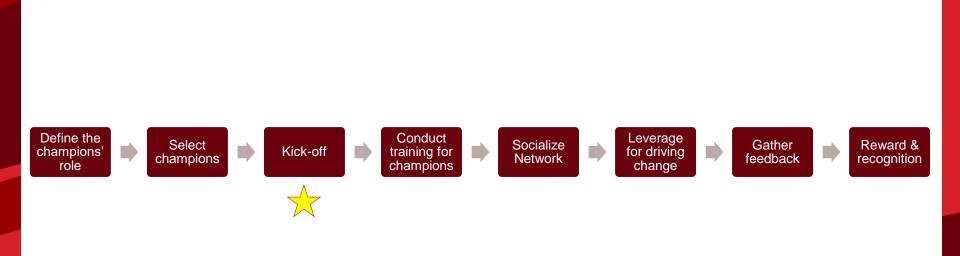

Accelerate the adoption of the change by quickly disseminating timely and accurate information and build trust through

communication and feedback

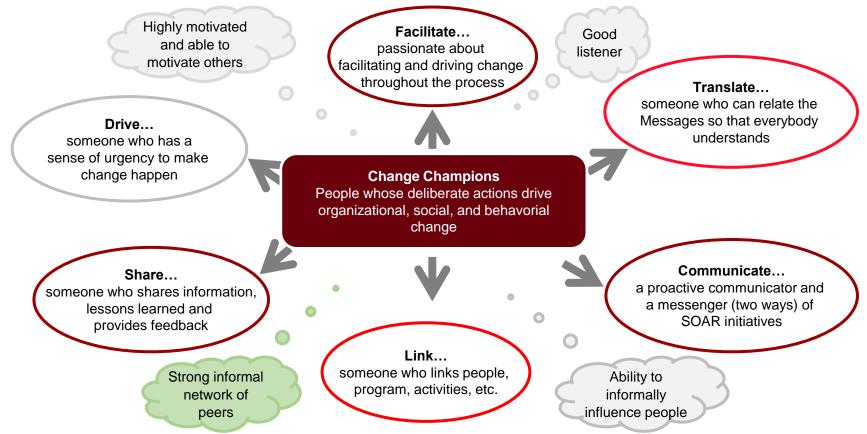

#### **Building the Champion Network**

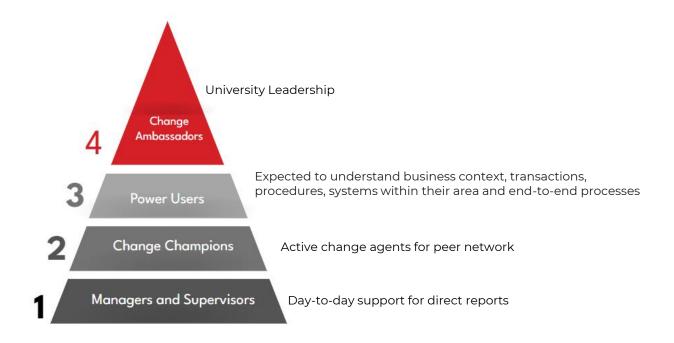

#### Why are we here?

#### Change Champion Network Structure WolfieONE

The following represents the various "tiers" in the network:

#### **Power Users**

### WolfieONE

## **Networking Activity**

### **Networking Activity**

#### **WolfieONE**

In Breakouts (groups of 4), WolfieONE Champions are given 10 minutes to network. Prompts:

- Share name and department name
- How long they have been a Seawolf
- Favorite yearly event or activity on campus
- Your "Superpower" the secret sauce, the thing YOU consider your strength!
- What (if anything, that you learned so far) are you the most excited about in the move towards Oracle Cloud?

## **About WolfieONE**

#### **WolfieONE Elevator Pitch**

### WolfieONE

#### **Business Transformation Initiative:**

WolfieONE is more than just a software update. It is a strategic transformation initiative that will design and implement an Enterprise Resource Planning (ERP) ecosystem at SBU, supported by Oracle, to better support our financial, budget, HR and business operations.

The new, cloud-based software will replace some of our systems but will also seamlessly integrate with many existing systems.

#### **Our WHY:**

Beyond the business reasons that became apparent during and post-pandemic, there are human capital drivers for this initiative, such as **employee morale and institutional reputation**.

The industry is moving from on-premise to the cloud in a number of ways. To remain competitive, modernizing archaic systems and processes is essential.

The employee experience and how you spend your time interacting with data is one of our top reasons for this transformation.

#### **Actionable "North Star"**

**WolfieONE** 

### **Vision Statement**

Drive university-wide strategic initiatives with a transparent, data-driven, and seamless user-focused experience to limit friction and support business continuity for all members of our community.

#### **Expected Benefits**

- Gradual reduction of on-premise (i.e., campus-based) systems, paper-based processes and labor-intensive manual processes
- Better integration across various ERP modules which supports smoother transaction processes and more powerful blended analytics/reports
- Integrated information systems that provide more up-to-date and accurate financial and operational data that increases transparency, and enhances planning and forecasting efforts
- Robust reporting capabilities enabling better decision-making as well as managing from a holistic vantage point rather than a siloed view
- Increased automation and self-service processes (and fewer human errors as a result)
- Simpler, more intuitive, modern user experiences and enhanced cloud-based data security

### WolfieONE

### **Guiding Principles**

### WolfieONE

- Collaborate cross-functionally
- Be transparent in decision making
- Communicate fully, seeking input and feedback

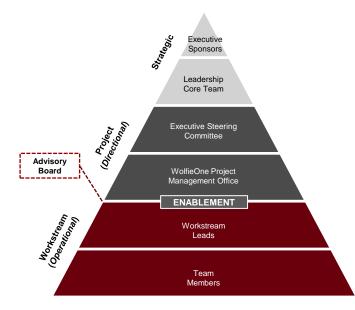

practices

#### **Project Governance**

### WolfieONE

Stony Brook and Deloitte team members have dedicated escalation channels to the project leadership stakeholders – driving efficiency and consistency in the decision-making process leads to better communication and fewer bottlenecks.

### **Entity Scope ERP & HCM**

### WolfieONE

The purpose of this Entity Scope view is to articulate how user populations within the below entities will align with respect to Day 1 Future-state WolfieONE application use and/or data integration. The Legal Entities that will be configured in Oracle is <u>separate</u> from this scope view.

	Entity									
Functional	SB	SB Foundation	FSA	Research Foundation <sup>3</sup>	SB Medicine					
Area SB University					SBU Hospital <sup>1</sup>	LISVH <sup>1</sup>	CPMP	ELI <sup>2</sup>	SBSH <sup>2</sup>	Other Affiliates <sup>2</sup>
ERP (Finance)	Yes	Yes	No	Integrate	Integrate	Integrate	No	No	No	No
HCM (HR)	Yes	No	No	Yes	Yes	Yes	No	No	No	No

Definition				
Yes Populations within this entity <u>will</u> log on to WolfieONE Oracle Cloud to transact and/or perform reporting activities.				
No Populations within this entity <u>will not</u> log on to WolfieONE Oracle Cloud to transact and/or perform reporting activities.				
Integrate Data from this entity will integrate with WolfieONE Oracle Cloud.				
Notes				
<ol> <li>SBUH / LISVH: EPM at summary level - they have their own budget system for daily operations. ERP – integrate for URAS reporting purposes – they have their own GL. Will load audited financial statement data to FCCS for consolidated financial reporting.</li> <li>ELI/SBSH/Other SBM Affiliates: These entities will load audited financial statement data to FCCS for consolidated financial reporting.</li> <li>RF: HCM consideration – RF employees include select CPMP and SBF staff.</li> </ol>				

#### **WolfieONE Workstreams**

#### **WolfieONE**

#### In our next session, we will deep dive into the 3 main workstreams that lead to change impacts that have the broader reach (ERP, HCM, EPM).

Workstreams relevant to educational campuswide efforts:

Enterprise Resource Management: all things Accounting & Reconciliation!

Human Capital Management: HR processes

Enterprise Performance Management: Budgeting, planning and forecasting.

Technology: Integrations & Reporting

Change Management

\* Although other workstreams are performing crucial work, those process areas are expected to directly impact a much smaller group of end users.

#### What's Changing?

### WolfieONE

CURRENT STATE SYSTEMS/PROCESS	FUTURE STATE SYSTEMS/PROCESS
Inconsistency across processes and practices	Standardize processes and practices (80/20)
Oracle/ <b>Peoplesoft</b> software for Financial	Enterprise Resource Planning (ERP), Enterprise Performance Management (EPM)
Oracle/ <b>Peoplesoft</b> software for Human Resources	Oracle Human Capital Management (HCM) Cloud
<b>Campus Budget Module</b> (CBM) for Budget and Planning	Enterprise Performance Management (EPM)
<b>SOLAR</b> (time and attendance; employee information, NOT the student side)	Oracle Human Capital Management (HCM) for reporting time and attendance
Recruiting and onboarding in <b>Taleo</b>	Oracle Recruiting Cloud (HCM)

### What's not changing?

### **WolfieONE**

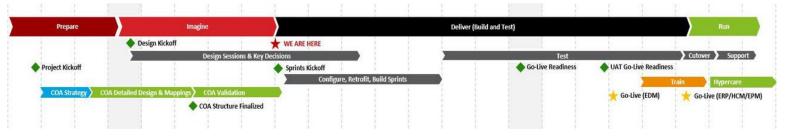

CURRENT STATE	FUTURE STATE INTEGRATIONS
Jaggaer (WolfMART) SUNY system- wide SaaS solution for Procurement	Possible retrofit for some fields with the new COA, integration with Oracle, end- user <b>will continue to use Jaggaer</b> in the same way
Concur for travel & expense reimbursement	End-user <b>will continue to use Concur</b> in the same way as in the current state.
Hospital - Finance (Lawson)	Hospital finance professionals will continue to use their current COA in Lawson
Student Information Systems	Campus Solutions will integrate with WolfieONE. Students' employee records will also exist separately from their Academic record in WolfieONE.
Hospital usage of Kronos	Will integrate with SUNY system for payroll purposes

#### **Project Phases**

### WolfieONE

ERP & HCM are in Build/configure, while going through an iterative process to make decisions about certain system components still in Design, before moving those processes and user stories into "Sprinting" mode. Enterprise Performance Management is in Design.

Once we configure the system, we test, make adjustments, test again, then train the trainers, who will in turn train the end users.
