Stony Brook University

Security & Safety Bulletin for Researchers

Research Security & Safety

The Stony Brook University community has many valuable resources to protect. These bulletins are meant to provide quick facts, best practices, and key University contacts.

Server Rooms / NOC (Network Operations Center)

What is a NOC?

A NOC, or Network Operations Center, is a restricted area only allowed by authorized personnel. It houses the critical infrastructure for data used by SBU. All Server Rooms are critical to operations and research at Stony Brook University.

How Does it Affect Me?

➢ If you see something, say something!

➢ Any unusual activity in or around a Server Room/NOC should be reported.

➢ If you are entering a restricted building, be on the lookout for anyone tailgating (trying to sneak in behind you).

➢ Do not plug in any unauthorized devices into the network without notifying DoIT Personnel.

Whom to Contact

Networking (Emergency Only):
