Request to Host Public in Permitted Ionizing Radiation Spaces

Radioactive materials and X-ray permit holders must obtain approval to host public guests in areas containing radioactive materials or X-ray generating devices. This form must be completed and returned to the Department of Environmental Health and Safety. Approval of the form is required **prior** to public guests accessing permitted areas. For additional policy information please contact Stony Brook Radiation Safety, 631-632-6410 (for both University and University Hospital) Environmental Health and Safety, a Division of Enterprise Risk Management.

Radiation Safety Radioactive Materials or X-ray Permit Holder
