

# SAFETY INSIGHTS

News and Awareness Information from Environmental Health & Safety

August 2019

## September is National College Fire Safety Month

Every year college and university students experience a growing number of fire-related emergencies. In September 2005, The Center for Campus Fire Safety designated September as Campus Fire Safety Month across the nation, with the goal to raise the level of awareness among parents, students, administrators and legislators about the importance of fire safety.

Throughout the month of September and October, the Department of Environmental Health & Safety Fire Marshals have partnered with the Department of Residential Risk Management, for our continued fire safety initiative. The goal of this partnership is to provide educational programs and interactive demonstrations for the campus community. Additionally, we have scheduled programs throughout residence hall quads that include a fire safety lecture and live fire demonstration. This program known as “Heat & Heat” has proven to attract vast amounts of Student’s with an increased awareness of fire safety.

Our annual Campus fire and safety day, has been scheduled for Wednesday October 2<sup>nd</sup>, from 10:00-3:00 p.m. on the SAC Plaza. Please reference the links below for a complete schedule of fire safety activities, in addition to resources providing fire safety information.

Please feel free to contact the University Fire Marshal’s office for any questions or concerns. 631-632-9678.
