SAFETY TALK

First Aid Kits

All jobsites should have a readily-accessible first aid kit equipped to ANSI Z 308.1-2015, Minimal Requirements for Workplace First Aid Kits. Keep in mind that the ANSI standards are a minimum, and that jobsite first aid kits may need to be supplemented dependent on the hazards in your area. Keep the below thoughts in mind when specifying jobsite first aid kits.

First Aid Kit Best Practices
• First aid kits must be inventoried regularly to ensure emergency supplies are ready and not expired.
• Consider first aid kits / bags that are portable.
• Employees must know the locations of first aid kits.
• Employees must know how to contact University Police. EMERGENCY: (631) 632-3333 or 333 from a campus phone
• Visit the EH&S website for more information on injury reporting: https://ehs.stonybrook.edu/programs/occupational-safety/Injury-Reporting
